2020-24

“A whole world opens up as soon as I step into the library.”

“ I’m amazed every time I come that my local community has such a wonderful free resource that allows everyone to participate in learning and sharing. I’m an immigrant and my local library has been central to my sense of belonging to my local community – from reading material when I had no money for books, to mum and bubs sessions when my son was young. Thank you. ”

# MAYOR'S FOREWORD

We're incredibly proud of our libraries in Darebin and have seen them grow to become an integral part of our community. Over the past five years, we've provided more than 6 million loans, welcomed more than 3.1 million visitors, and delivered nearly 44,000 items to our housebound customers including 12 aged care facilities.

No longer just a place to borrow books, our libraries are welcoming, safe places for anyone to read, study, work and relax. In the past five years, we delivered close to 3,000 events for almost 160,000 attendees, hosted 417,811 computer sessions, and supplied resources in more than 70 community languages. Our events and programs support lifelong learning, promote the benefits of reading, celebrate our diverse community, and encourage connection with others.

At Darebin Libraries, our mission is to inspire and enable our diverse community to learn and grow, and we have designed our *Darebin Libraries and Learning Strategy 2020-24* to do just that. Darebin is fortunate to have a wide range of formal and informal learning organisations for people of all ages and stages of life – from schools to neighbourhood houses, community learning organisations to small businesses with a learning focus. We look forward to partnering with our learning community to achieve shared goals and outcomes.

In developing the Strategy, we asked our community what they wanted and needed from us, and how we could support their lifelong learning. We also considered how our population is growing and how the way we live, work and learn is changing. We looked at the challenges facing all of us, including the climate emergency, the recovery from COVID-19, increasing income inequality and social isolation.

I, on behalf of Council, would like to sincerely thank the following community members for their contribution to the development of the *Darebin Libraries and Learning Strategy 2020-24* through their participation on, and commitment to, our Reference Groups:

- » Lifelong Learning Strategy: Amrita Chandra, Annette Davis (U3A), Basis Papageorge (Melbourne Polytechnic), Colleen Duggan (Darebin Neighbourhood House Network), Donna White, Elizabeth Branigan, Georgia Symons, Graham Stevenson (Department of Education), Dr Katherine Bussey, Millie Law, Neridah Baker (La Trobe University), Peter Bartley, Sandro Serio, and Shanthi Anthony (East Preston Islamic College)
- » Darebin Libraries Strategy: Anne Thoday, Bev White, Bill Swannie, Daniel Pintado, Maddy Maitri, and Rod Jones

Our Strategy reflects our commitment to responding to those challenges and harnessing the opportunities they present. Our Strategy has four goals:

- » To improve equity of access
- » To support our thriving and resilient community
- » To create welcoming, safe, inclusive and flexible spaces
- » And to deliver responsive services

These goals put our community at the heart of our decision making and will guide our efforts over the coming years.

We look forward to seeing you in our libraries in the future.

**Cr Susan Rennie, Mayor, City of Darebin**

# WHAT IS LIFELONG LEARNING?

Lifelong learning is the ongoing process of developing a person's knowledge and skills throughout their entire life for personal growth, social and civic participation, and employment.

Darebin Libraries supports and encourages lifelong learning because it helps improve social inclusion, community engagement, personal development and employability.

Our approach to lifelong learning focuses on:

- » Delivering individual, community and economic benefits.
- » Learning for people of all ages and all life stages.
- » Embracing formal education, structured learning and informal learning.

Victorian public libraries have committed to embedding the United Nations Sustainable Development Goals (SDGs) into our planning. The SDGs provide a framework to showcase the impact libraries achieve by providing access to information and helping our community transform their knowledge into life-enhancing opportunities.

Lifelong learning and libraries play an important role in:

- » Goal 1: No poverty.
- » Goal 3: Good health and well-being.
- » Goal 4: Quality education.
- » Goal 5: Gender equality.
- » Goal 8: Decent work and economic growth.
- » Goal 9: Industry, innovation and infrastructure.
- » Goal 10: Reduced inequalities.
- » Goal 11: Sustainable cities and communities.
- » Goal 13: Climate action.
- » Goal 16: Peace, justice and strong institutions.
- » Goal 17: Partnerships for the goals.

## SUSTAINABLE DEVELOPMENT GOALS

# THIS IS DAREBIN

- » Our **population is growing**. Darebin is currently home to over 160,000 residents and this number is forecast to grow by 39 per cent to more than 230,000 by 2041. It is likely that housing demand will be met by high-density housing, particularly in Preston and Reservoir.
- » The proportion of **older people** in our community continues to grow. People aged 65 years and over make up 13.7 per cent of the Darebin population. By 2041, this percentage is expected to rise to 14.7, meaning 33,846 people will be 65 years and over.
- » **Children** (aged 0–17 years) make up 19 per cent of Darebin’s population and this percentage is expected to remain constant until 2041. This means an additional 12,956 children will be living in Darebin by 2041.
- » We are **culturally diverse**. In Darebin, 33 per cent of residents were born overseas, almost half of all residents had both parents born overseas, and 37 per cent of residents speak a language other than English at home. 138 languages are spoken in Darebin households.
- » **Aboriginal and Torres Strait Islander peoples** make up 0.8 per cent of Darebin residents. Darebin recognises Aboriginal and Torres Strait Islander peoples as the first peoples of this country.
- » People with **disability** continue to face problems accessing services and information. Six per cent of our population reports needing help in their day-to-day lives due to disability.
- » Council recognises the world is in a state of **climate emergency**. Climate change is making weather more severe, which impacts human health and wellbeing as well as our natural environment.
- » Darebin’s **economy** is changing. Once driven by manufacturing, the main growth industries are now in the service and knowledge sectors. The number of small, home-based businesses is growing, and technology, including automation, is transforming work.
- » **Income inequality** has widened in Darebin. Three of Darebin’s northern suburbs rank among Victoria’s most disadvantaged suburbs, while our south-eastern suburbs rank among the least disadvantaged. Older people, people for whom English is a second language, and single parents are more likely to be in the lowest 20 per cent of income earners.
- » In Darebin, 26 per cent of households contain only one person. **Social isolation** is a growing issue and has a significant negative impact on physical and mental health. Poverty, unemployment, and poor relationships are also associated with social isolation.

# WHAT OUR COMMUNITY SAID

When developing this Strategy, it was important for us to understand and meet the needs of the Darebin community.

To reach as many people as possible, we used a variety of communication methods, which included:

- » A survey of more than 1,800 library customers to evaluate the success of the Darebin Libraries Strategy 2014-19.
- » Workshops and interviews.
- » An online survey of more than 1,060 community members.
- » Consultations with almost 250 community members in a variety of settings to understand problems accessing services and information, particularly for non-library users.
- » Attending 20 Council Advisory Committee meetings.
- » Community focus groups.

The results of these activities highlighted the positive impact of Darebin Libraries on our community and showed that we are seen as a valued and trusted community resource.

“ I love EVERYTHING about the library! I love how it is a village, with everyone from teeny-tiny babies to savvy senior citizens there. I love how libraries provide access to ‘the whole world’... especially now that it is not just books but the internet, and especially for people who are on low incomes. ”
